Client Software – Most Recent Features

- Updates – when exiting – checks for a newer version

- If up to date

- If not, automatically updates

Current version: 2023.01c (exit software update)
Latest for new users or special requests: 2023.07
No noticeable/functional user differences

Client Software – Most Recent Features

- 2023.07  differences from 2023.01 

- Updated dynamic link libraries (dll)
- No functional changes
- When export settings

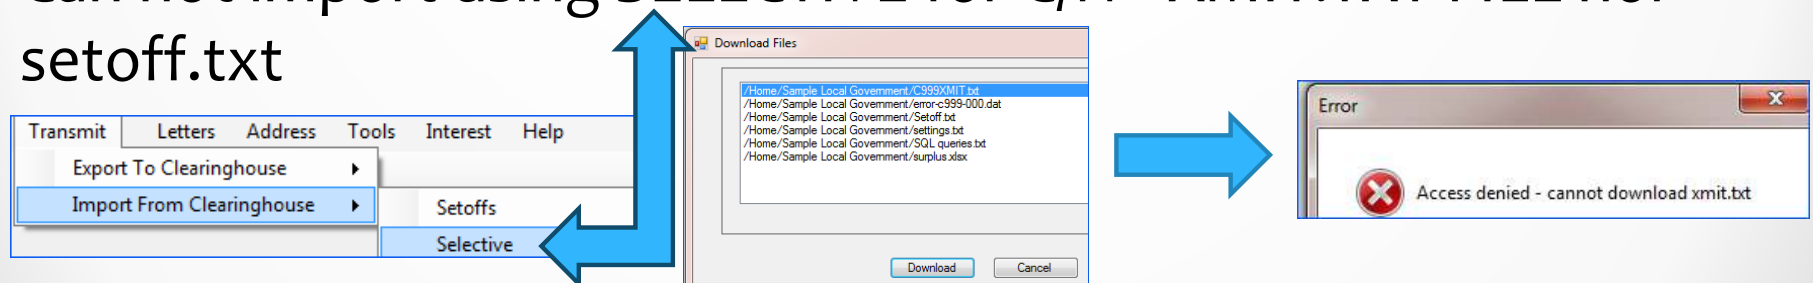

Currently only doing installations for new workstations. Awaiting new enhanced 2025 version rollout for all others except those determined to have version prior to 2023.

- Displays version in file name

C999_settings_2307.txt

Client Software – Most Recent Features

- Security - restrict access to files with full SSNs
 - Can not import using SELECTIVE for C/N---XMIT.TXT FILE nor setoff.txt

XMIT.TXT file has all debtors and debts (with SSN) for the local government and serves no purpose for the local government to download. Clearinghouse downloads soon after 5 p.m. each Friday and deletes.

Client Software – Most Recent Features

Configure Imports

- Based on debt account code:
 - TAX, UTL, EMS, HLT, etc.
 - configure the options so can't choose incorrect options thus deleting or duplicating debts – user just chooses the source file to import (usually same file name)

Account Code		
<input type="text" value="TAX"/>		
Add Options		
<input type="radio"/> New Adds	<input type="radio"/> New Adds and Adjustments	<input type="radio"/> Zero Adds and Adjustments
<input type="radio"/> Only Adjustments	<input checked="" type="radio"/> Zero Adds and Adjustments NCPTS/OneTax	
Retain Remove Options		
<input type="radio"/> RETAIN CURRENT DEBTS and add Excel file		
<input checked="" type="radio"/> REMOVE ACCOUNT CODE DEBTS and replace with Excel file		

Clearinghouse can assist in configuring so local government can import alone with confidence of correct options being configured. Afterwards, contact us if a special process is needed or there is a change in third-party vendor.

Plans for 2025 are for more local governments to do their own imports (documentation and training will be provided). Several NCPTS and OneTax users doing themselves.

First required vendor was EMS MC weekly adjustments.

Clearinghouse receives status and results and records and checks against prior imports.

Client Software – Most Recent Features

- Automatically exports to the Clearinghouse after a successful ASCII or Excel import:
 - Import Status report sent to the Clearinghouse
 - Summary report sent to the Clearinghouse
 - Export of all debt balances for the local government sent to the Clearinghouse

EMS_ImportStatus.rpt
EMS_Summary.rpt
TAX_ImportStatus.rpt
TAX_Summary.rpt

Client Software – Most Recent Features

- Automatically exports to the Clearinghouse after a successful import of setoff.txt:
 - Export of ALL debt balances for all departments from the local government to the Clearinghouse

Client Software – Most Recent Features

- Debtor Comments
 - Debtor entries with ability to print/edit/delete
- Year end clean-up by department (previously did ALL)

Client Software – Reminder

- Be sure your I.T. is doing regular backups:
 - NCDebtsetoff.mdf (main database file)
 - NCDebtsetoff.ldf (log file of all transactions and changes)
- Otherwise lose lots of important information that cannot be recovered – Debtors and Debt balances can be restored, but nothing else!

Client Software – Sign-on

PLEASE DOWNLOAD AND REVIEW ASAP AND CONTACT US AS TO WHAT YOU PREFER TO DO.

INFORMATION:

This is official notice that your local government has expired debt(s) with the N.C. Local Government Debt Setoff Clearinghouse that have expired or will expire by December 31, 2024.

- a) either EXTEND or DELETE. Do not leave Expired Debts that cannot be collected in your debt setoff system.
- b) We will delete ALL expired debts here at the Debt Setoff Clearinghouse around January 3, 2025, so doing nothing will still lose their priority, even if extended later.
- c) In order to retain priority these debts must be modified by 5:00 p.m. Friday, December 27 at 5:00 p.m.
- d) We are providing an Excel file for your review. For those local governments that have multiple departments please note there is only one Excel file.
- e) We have sorted it in department and then name order. Download, SAVE and review as soon as possible.
- f) WE HAVE MASKED THE SOCIAL SECURITY NUMBER SHOWING ONLY LAST FOUR. HOPEFULLY WITH THE NAME, ACCOUNT NUMBER AND DEPARTMENT CODE YOU CAN DETERMINE THE DEBTOR.

User – Change Expiration Date

- Powerful option to globally Update ALL; one date; or a range of dates

The screenshot shows the 'Tools' menu with 'Users' selected, leading to the 'Change Expiration Date' option. Below it, the 'Update Options' dialog box is displayed with three radio button options: 'Change All Expiration Dates', 'Only change for Current Expiration Date', and 'Only change dates within Start and End date range' (which is selected). To the right of the dialog box, the 'Dates' section shows four date pickers: 'Current Expiration Date' (11/12/2024), 'Start Expiration Date' (01/01/2000), 'End Expiration Date' (12/31/2024), and 'New Expiration Date' (12/31/2034).

- Can do ALL Account Codes (that credentials allow) or just ONE

The screenshot shows the 'Account Codes' dialog box with a checkbox for 'Update all Account Codes' and a dropdown menu for 'Account Code' currently set to 'TAX Taxes'.

Statute of Limitations applies to the age of the debt or established activity (invoice/bill or payment) NOT the amount of time attempting to collect. Ten years for taxes, 3 years for all others but discuss with your attorney. For example: For example, delinquent 2008 tax bill that notices were sent to last known address through 2014 could be submitted to debt setoff (10 years within last activity). Other non-Tax delinquent, ex. 2016 debt with no invoices/bills or payments since 2021, cannot be submitted (no activity in 3 years).

Client Software – Tools

User – Change Compliance Date

- Powerful option to globally Update ALL; one date; or a range of dates

The screenshot shows the 'Tools' menu with 'Users' selected, leading to a submenu where 'Change Compliance Date' is highlighted. Below this, the 'Update Options' dialog box is shown with three radio buttons: 'Change All Compliance Dates', 'Only change for Current Compliance Date' (which is selected), and 'Only change dates within Start and End date range'. To the right of these options is a 'Dates' section with four date pickers: 'Current Compliance Date' (10/11/2024), 'Start Compliance Date' (11/12/2024), 'End Compliance Date' (11/12/2024), and 'New Compliance Date' (11/15/2024).

- Can do ALL Account Codes (that access rights allow) or just ONE

The screenshot shows the 'Account Codes' section with a checkbox labeled 'Update all Account Codes' and a dropdown menu for 'Account Code' currently set to 'TAX Taxes'.

Example: a pdf of TAX due process notification letters were generated on 10/11/2024 but something occurred and the letters were not mailed until 11/11/2024. The Compliance Date would need to be updated so the debts would not be available for the Dept. of Revenue until at least 11/15/2024. In this example debts would be available on Tuesday 11/19/2024.

Cannot begin SSN with 000 or 999 – don't recommend entering debtors without an SSN or ITIN as no possibility to collect. But can do letters using web template without SSN/ITINS. NOTE: NC Debt Setoff does not import invalid or missing SSNs/ITINS, nor assist with due process letters for invalid SSNs/ITINS.

Cannot change SSN here – must use Tools-Users-Change SSN option
